## **Colonial Seal Co. relocates to larger facility**

**Gloucester City, NJ** - [Colonial Seal Company](http://www.colonialseal.com), the New Jersey based distributor of [standard](#) and [custom sealing solutions](#) has announced the relocation of our corporate offices to Westville, New Jersey as of February 9<sup>th</sup>, 2009. The new office is located at 1120 Crown Point Rd, Westville NJ 08093, approximately five miles from the current location in Gloucester City, NJ.

“The new office space means improved customer service, employee amenities and room to facilitate our growth. The new space features approximately 15,000 square feet of warehouse space, 3,000 square feet of office space, convenient visitor parking facilities and a loading/receiving bay. Relocating to a larger facility gives us increased operational effectiveness in how we serve our customers. As we started to outgrow our current office, operational and internal efficiencies became challenged. This move will improve internal and external communications, and most importantly our speed in responding to customers needs, as we are now able to position our entire customer service units in the same area of the new building. In addition, the larger warehouse improves our inventory management control systems need to deal with our growing customer base,” says Mr. Stephen Maloney, President, Colonial Seal Co. We were fortunate to find such a nice space so close to our current office. We really wanted to limit the impact that relocation could have on our clients and our employees. I don’t think we could have found a better location for our team. Our
