Dependable Mechanical Seals You Need to Reduce Downtime Costs

Westville, NJ - Colonial Seal Company, a New Jersey-based specialty distributor of standard and custom sealing solutions, has formalized a partnership with a UK-based mechanical seal manufacturer to offer complete [design service](#) and replacement of almost all major mechanical seal products including Burgmann, AES, John Crane, M.T.U., PAC-SEAL, Roten, Pillar, and US Seal.

After several years of selling mechanical seals, Colonial Seal Company chose to partner exclusively with this UK-based manufacturer because of their superior products, wide range of selection, competitive pricing, and reduced lead time. State-of-the-art designs, world-class facilities and people, automated manufacturing processes, continuous inspections and logistics, and constant innovations have resulted in a loyal and growing customer base.

“As an organization, Colonial Seal Company only sells products that are manufactured to meet our high quality standards and procedures. Dependability, quality, and stock selection have proven to be a hallmark of our relationship,” says Joann Bell, Colonial Seal Company’s Marketing Manager.

The range of new design or replacement mechanical seals includes: elastomeric bellows seals, conical spring o-ring mounted seals, parallel spring diaphragms, and balanced diaphragm seals, parallel spring o-ring mounted seals, wave spring type seals, and water pump type seals. When it comes to water and wastewater pumps, we know the

failure of the mechanical seal is the number one reason for production downtime. The use of quality designs and materials will alleviate frequent seal failure.

No other company stocks a more comprehensive selection of mechanical sealing solutions. Readily available are seals for the following pump manufacturers: A.B.S., Allweiler, Ebara, Flygt, Godwin, Grundfos, Hidrostal, Lowara, K.S.B., Viking/Wilo, Alfa Laval, A.P.V., Fristam, and Johnson pumps. A particular strength of ours is to provide your organization with management solutions for sewage handling in wastewater plants. If your application is unique, or your current mechanical seals are not providing the life or functionality you require, then Colonial Seal Company will be able to help.
