## **Colonial Seal Co. Supplies High Performance Hydraulic Seals**

**Gloucester City, NJ** – [Colonial Seal Company](http://www.colonialseal.com), ISO 9001:2000 certified custom manufacturer and distributor of high performance sealing products and solutions, announced the company supplies a variety of [hydraulic seals](#). According to Sandra DeVine, General Manger Colonial Seal Company, “We supply hydraulic seals in a variety of high performance materials including Teflon, PTFE, Viton, nitrile, fabric-reinforced(duck) rubber, and polyurethane compounds. Our rod and piston seals are generally used in high-pressure hydraulic cylinders or high speed pneumatic applications. We have been supplying seals to cylinder manufacturers, various MRO’s, and material handling equipment manufacturers for over a decade.”

Hydraulic seals from Colonial Seal Company come in a range of profiles including U-cups, energized u-cups, V-seals and vee-packings, wiper scrapers and T-seals. The seals are applied in low pressure less stressed environments such as automated or mechanical lifting equipment, robotics and control equipment and light duty material handling applications. Colonial Seal Company also supplies custom hydraulic seal capabilities for use in high
