## Colonial Seal Co. offers Standard Shaft Seals

Gloucester City, NJ - [Colonial Seal Company](http://www.colonialseal.com), the New Jersey based distributor of [standard](#) and [custom sealing solutions](#) announces that the company supplies grease or rotary shaft seals in standard and non-standard profiles. “We offer our customers an extensive list of profiles to satisfy various applications. We offer general purpose and special purpose seals in a variety of cases, lip profiles and materials, and can custom manufacture seals to OEM specifications. Through our qualified network of global sourcing partners, we offer a cost effective alternative to name brand seals. In most cases we can provide our customers a 20 – 35 percent cost savings over name brands,” says Mr. Barry Huver, Operations Manager, Colonial Seal Company.

Standard oil seals supplied by Colonial Seal Company generally are provided in metal cased or fully rubber covered configurations. These standard profiles conform to DIN types A, AS, B, BS, C or CS. These general purpose seals are used in an extensive range of applications including but not limited to bearings, electric motors, gear reducers, steel mills, paper plants and a variety of pumps. The seals are available in several materials including Nitrile (NBR), Fluorocarbon (Viton®), PTFE and in both standard and metric sizes. Custom profiles are also offered by Colonial Seal and these metal-cased custom seals can be produced in minimum quantities, without tooling charges, in less than a week.

Large bore fully metal-cased designs that tolerate shaft to bore misalignment are also part of the standard and non-standard offerings. Standard and non-standard seals by Colonial Seal Company are also found in food & beverage, oil & gas industries, pharmaceutical equipment and military applications.

Colonial Seal Company has full cross reference capabilities for most major seal manufacturers and specializes in replacements for obsolete or discontinued parts. The company can design a sealing solution from samples or OEM drawings and can provide prototype samples for approval prior to production. Distributors can Contact Colonial Seal Company at 1.800.564.2201 for special pricing on standard seal profiles. If you have a unique application that requires a custom sealing solution, visit our website at [www.colonialseal.com](http://www.colonialseal.com) to submit your specifications and a Colonial Seal representative will contact you within 24 hours. Colonial Seal also provides inventory and logistic management services that improves supply chain efficiency.
