## **Vee Packing Sets supplied by Colonial Seal Co.**

Gloucester City, NJ – Colonial Seal Company the New Jersey based manufacturer & distributor of standard and custom sealing solutions supplies vee packing sets for hydraulic and pneumatic applications. “We supply standard fabric reinforced rubber and homogenous NBR male and female rings in multiple or individual ring components. We offer traditional Chevron® type vee packing configurations and can custom manufacture vee packing for demanding high temperature high-pressure applications. Colonial Seal vee packing are operating extensively in hydraulic applications, plunger pumps, and down-hole pumps used in the oil & gas industry” says Ms Katrina Mackey, Territory Manager, Colonial Seal Company. We are an authorized distributor for JM Clipper and Hallite, and can supply cost-effective replacement vee packing alternatives to Garlock, SKF, and Parker brands, continued Ms. Mackey.

Vee packing sets from Colonial Seal Company come in a range of materials including homogeneous rubber, fabric reinforced rubber, with Hytrel® and Teflon® vees also available. In addition, the company supplies glass filled PTFE, Viton®, and bronze or brass components for demanding applications. The multiple rings of a vee set each act as an individual back up sealing ring, distributing operating pressure along multiple lips. Their

hinged design allows for automatic adjustments to varying pressures, with the installation of special metallic end rings preventing extrusion at higher pressures.

The wide range of applicable materials and flexible design means vee packing sets can be used across a variety of fluids and can be custom-designed to OEM specifications. Colonial Seal vee packing sets are supplied in solid rings or split rings for easy installation. Vee packing sets are applied in rods, pistons, and plungers across a range of industries including food processing, petro-chemical, industrial processing, and medical applications.

Through a qualified network of global sourcing partners, Colonial Seal Company offers a cost-effective alternative to name-brand seals. In most cases, the company can provide customers a 20 – 35 percent cost savings over name brands. The company has a logistic management system in place to support cost reduction and supply chain efficiency. Small quantity, obsolete seals – no problem! Click [here](#) to contact Colonial Seal to request more information on vee packing sets or other products and services. To request a quote contact Colonial Seal immediately at 800.564.2201.

If you have a unique application that requires a custom sealing solution, visit the website at [www.colonialseal.com](http://www.colonialseal.com) to submit your specifications and a Colonial Seal representative will contact you within 24 hours. Colonial Seal will provide first article samples for your approval depending on order size.
